- Routine servicing
- Repair
- Modernisation
- Refurbishment

Computer-aided trouble-shooting

Friendly call centre

Pre-delivery inspection

Parts for all brands

MHE-Demag is the leading provider of material handling equipment and solutions in South East Asia.

With over 30 years of experience in the industry, MHE-Demag is a trusted brand for superior material handling with a strong commitment to sound engineering practices and creative problem-solving methodologies.

Responsible for over 1,600 crane installations in the region, MHE-Demag draws on its wealth of resources to provide you with first-class design, manufacturing, project implementation and comprehensive service support.

Its success is the result of a systematic approach to quality management, underlining its philosophy of exceeding the standards and regulations required by industry practices and government regulations.

MHE-Demag is committed to provide products that are safe in their production, intended use and maintenance in line with Environment, Health & Safety (EHS) excellence. Today, all its facilities in the region are ISO 14001 and OHSAS 18001 certified.

Deploying the latest information technology solutions such as SAP, Hyperion, CRM and in-house Lotus Notes knowledge-based systems, MHE-Demag is able to provide instant and precise information for customers and employees alike, in support of its customer care programme.

The *name* for material handling
